Don and Robin Walker of Lubbock are pleased to announce the engagement of their daughter, Ivy Lea Walker, to Kristopher John Zepeda of Lubbock. The future bridegroom is the son of Johnny and Virginia Zepeda of Brownfield. The bride-elect, a graduate of Monterey High School, graduated with a Bachelor of General Studies degree from Texas Tech University. She is currently employed at Texas Tech University Health Sciences Center. The bridegroom, a graduate of Seagraves High School, received his Doctor of Pharmacy from the Texas Tech University Health Sciences Center his Master of Business Administration from Texas Tech University. He is currently employed by University Medical Center and is a Clinical Assistant Professor for the Texas Tech University Health Sciences Center School of Medicine. The couple will exchange wedding vows on March 16, 2013 at the First United Methodist Church in Lubbock. After the wedding, the couple will reside in Lubbock.

Happy Valentine's Day Aaron!

With this first Valentine's as husband and wife
I couldn't be luckier to have you in my life
Instead of finding a gift to buy
I booked a ticket so I could fly
Now as I lay here in your arms
Feeling safe from any harm
I know no matter what I do
I'm the most complete when I'm with you
These last few years have seemed so long
But our love has remained strong
One more year to be apart
Until I'm finally with my sweetheart!

Love ~ Caitlin

STRONG ECONOMICAL DEPENDABLE

In need of a new pivot?
With variables such as available water, topography, soil type and crop rotations there is no "one size fits all" when it comes to pivot design. Diversity Irrigation considers all these factors when custom designing your pivot.
Approved for EQIP funding?
Diversity Irrigation will design your system to meet EQIP funding requirements.
Need financing?
Reputable equipment financing programs are available featuring highly competitive purchase, lease or refinancing options with quick decisions and flexible terms. Standard 1/4 mile pivot as low as $5385 per year.
Why Reinke?
Reinke combines high-strength steel with superior engineering to create an irrigation system that is lightweight and uncompromisingly durable at the same time. Our systems can be up to 50% stronger than competing irrigation systems. Benefits include lower maintenance costs and higher performance in the field.
